

UI/UX REDESIGN · MOBILE & DESKTOP

City4Christ Member App

One unified church community platform for the Bible, fellowship, prayer, ministry groups, sermons, events and member relationships.

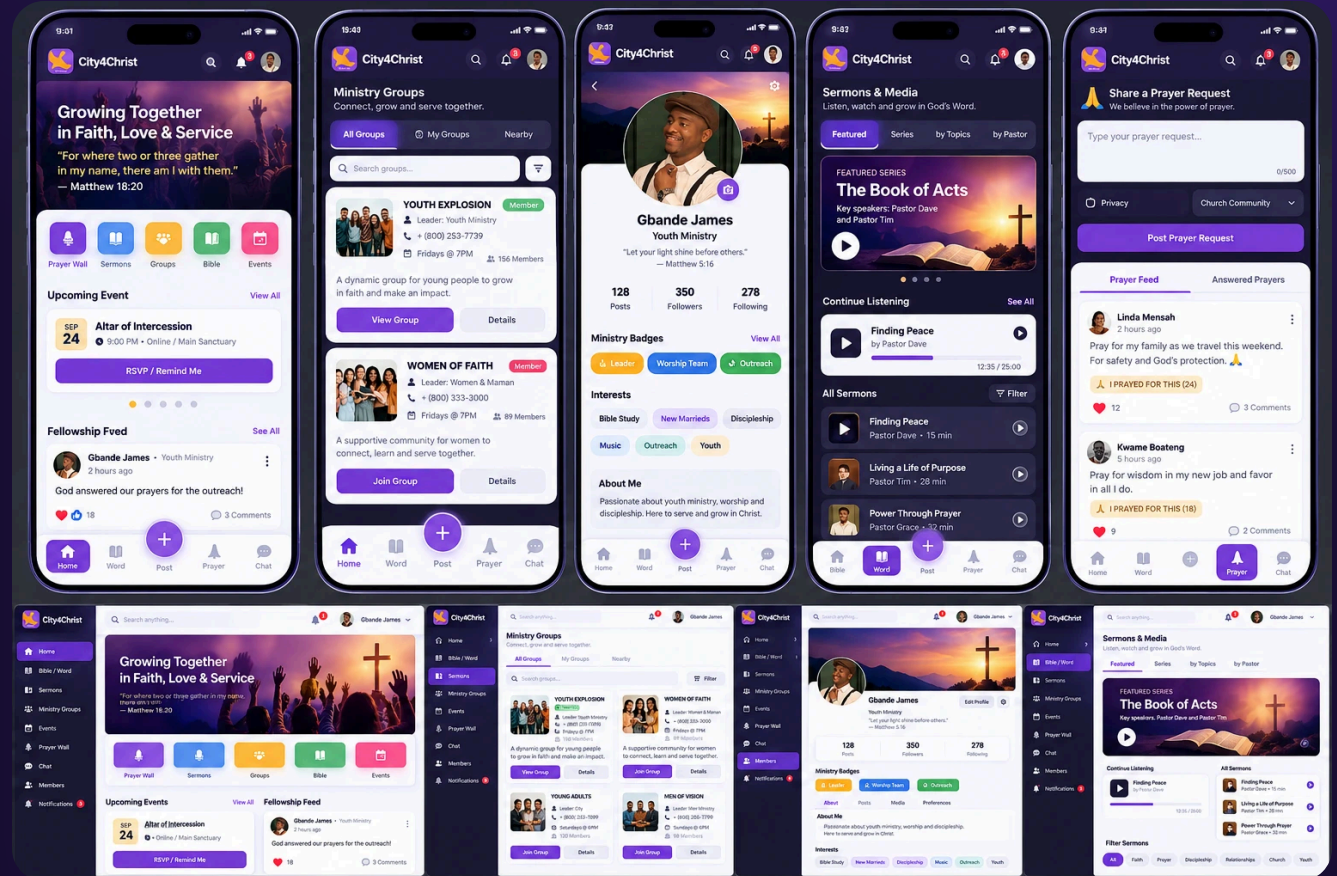

Dashboard

Ministry Groups

Profile

Sermons & Media

Prayer Wall

From separate feature mockups to one platform

The original screens read as individual feature mockups. The redesign should feel like one church social and community platform. It should be as easy to use as a modern social app, but built around faith and fellowship.

Unified

One design system, one navigation model and shared components across every module.

Participatory

Members pray, post, join and RSVP, not only read. Actions like “I Prayed For This” record real participation.

Word-centred

Scripture, devotionals and sermons appear everywhere, starting with the verse on the home screen.

Device-native

Mobile and desktop are separate layouts built on one design system. Desktop is not a stretched phone screen.

The five core modules

1 · Home / Member Dashboard

2 · Ministry Groups

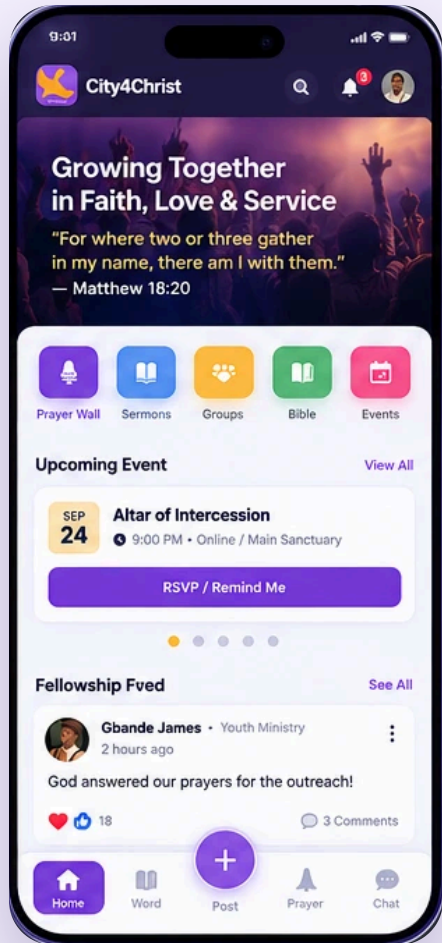

3 · Member Profile

4 · Sermons & Media

5 · Prayer Wall

Each one has a mobile composition and a desktop counterpart.

A daily starting point

MOBILE

Header

City4Christ logo · Search · Notifications · Member avatar

Hero / Daily Scripture

Scripture of the day, Bible reference, a Listen button and a Daily Devotional button

Quick Actions

 Prayer Wall

 Sermons

 Groups

 Bible

 17 Events

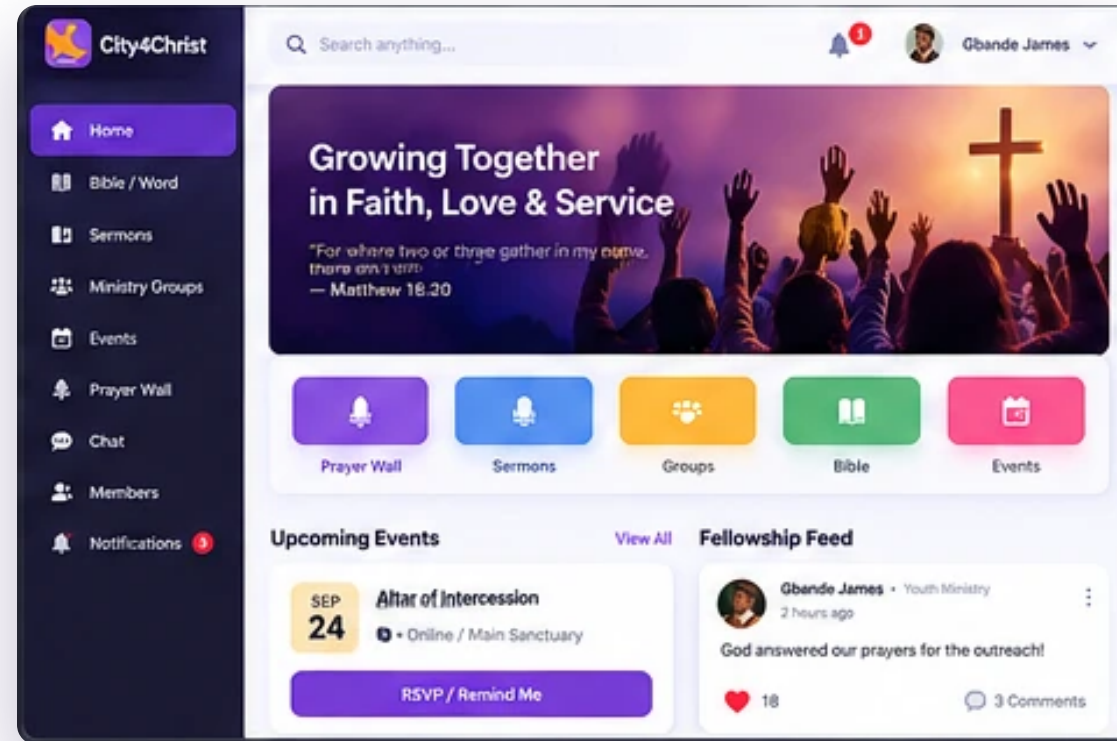

Upcoming Events

Date · Title · Time · Location or Online · **RSVP / Remind Me**

Fellowship Feed

Member posts with reactions, comments, share and a more menu

Three-column dashboard

Left · Sidebar

Home · Bible / Word · Sermons · Ministry Groups ·
Events · Prayer Wall · Chat · Members · Notifications

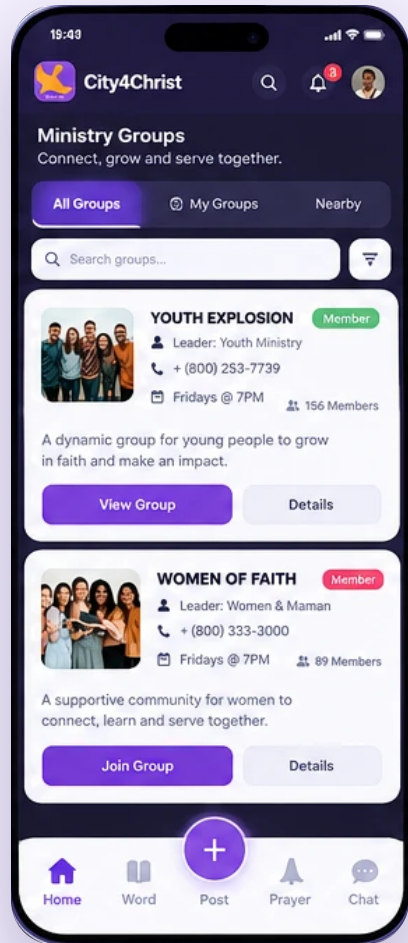

Center · Content

Scripture hero · Events · Fellowship feed

Right · Context

Upcoming events · Prayer activity · Suggested
groups · Online members

Search, filter, compact cards

MOBILE

Replace the original large cards with a cleaner layout built on search, filters and compact cards.

Audio player Video player Download Share Save Personal notes Bible references Transcript Related sermons

Desktop: full media dashboard with a fixed player

Featured Series → Continue Listening → Latest → Popular → Series → Topics

► Finding Peace · Pastor Dave
00:12:35 ————— 00:25:00 ⏮ 10s ▶ 10s ⏭

A major feature, not just another feed

MOBILE

Prayer composer

“Share a Prayer Request. We believe in the power of prayer.” A text field (500 characters), a privacy selector and a **Post Prayer Request** button.

Privacy options

Public Church Community My Ministry Group
Pastor Only Anonymous

The key interaction: 🙏 I PRAYED FOR THIS

Members don't just like a prayer. They record that they actually prayed. The count shows the requester how many people are praying for them.

Prayer card

Linda Mensah · 2 hours ago
Pray for my family as we travel this weekend. 🙏

🙏 I PRAYED FOR THIS (24)
❤️ 12 💬 3

Tabs

Prayer Feed | Answered Prayers

Answered prayer

🙏 Prayer Answered
“God answered our prayer...”
❤️ 24 people prayed · 💬 8

One creation button, two navigation patterns

Mobile · 5-item bottom navigation

 Home  Word   Prayer  Chat

The center + is the main creation button. It opens a bottom sheet:

Create

-  Post
-  Prayer Request
-  Photo
-  Video
-  Event
-  Testimony

Creation stays one tap away, so the rest of the interface stays clean.

Desktop · persistent left sidebar

Desktop does not use the mobile bottom navigation.

CITY4CHRIST

-  Notifications

⚙ Settings

Top bar: **Search anything...** ·  ·  Member name

One system for every screen

Color

Deep Navy
#160D2E · primary

Royal Purple
#6B3FE0 · actions

Gold
#F4B73B · highlights

Soft Lavender
#E6DEFB · pills

Light Lavender
#F3EFFD · desktop bg

Button gradient
#6B3FE0 → #8A5CF6

Use very light lavender or white for desktop content areas, and deep navy or purple for selected dark sections.

Components

RSVP / Remind Me

Details

🙏 I PRAYED FOR THIS (24)

Member

Shape

16–24px border radius · soft shadows · rounded avatars

Touch

Large touch targets (44px minimum) · pill badges

Feedback

Skeleton loading states · toast notifications

Overlays

Modal dialogs on desktop · bottom sheets on mobile

Use one icon set with a consistent stroke weight everywhere.

Mobile vs. tablet vs. desktop

Mobile and desktop should not be scaled versions of each other. Each breakpoint gets its own composition.

MOBILE

390–430px

- Bottom navigation
- Single-column cards
- Swipeable sections
- Bottom sheets
- Center + create button

TABLET

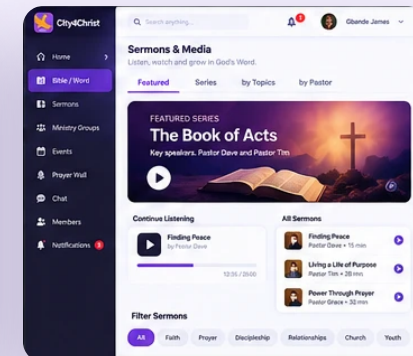

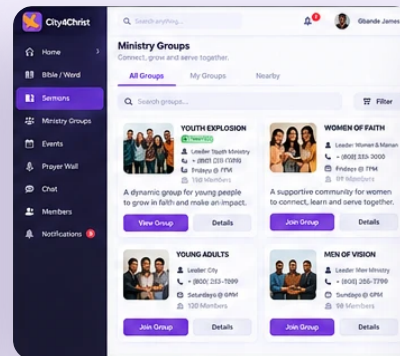

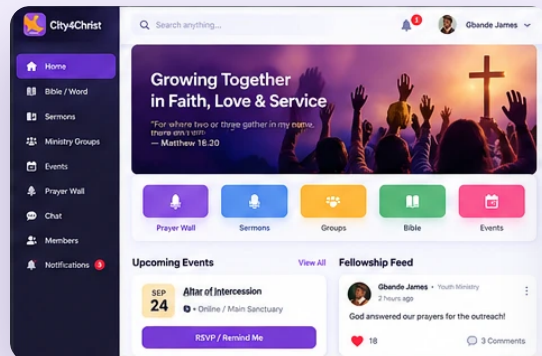

768–1024px

- Two-column layouts
- Collapsible sidebar
- Group grid with two cards per row
- Media player docked at the bottom

DESKTOP

1280px+

- Persistent sidebar
- Two- to three-column dashboard
- Large content areas
- Fixed media player
- Right-hand context panel

Build the system first, then the screens

STEP 1

Design tokens

Color, type scale, spacing, radius, shadow and motion, defined once and shared by every platform.

STEP 2

Component library

Buttons, pills, cards, avatars, feed items, prayer cards, media player, sheets, modals, toasts and skeletons.

STEP 3

Mobile compositions

Dashboard, Groups, Profile, Sermons and Prayer Wall with bottom navigation and the Create sheet.

STEP 4

Desktop compositions

Sidebar shell, multi-column dashboards, a fixed media player and context panels, as separate layouts.

The key redesign

Turn separate feature mockups into one church community platform. It should be as easy to use as a modern social app, and centered on the Bible, fellowship, prayer, ministry groups, sermons, events and member relationships.
